

DEPARTMENT OF THE ARMY
Office of the Chief of Engineers
Washington, DC 20314

Engineering and Design
INSTRUMENTATION FOR CONCRETE STRUCTURES

TABLE OF CONTENTS

Paragraph		Page
CHAPTER 1 - INTRODUCTION		
1-1	Purpose and Scope	1-1
1-2	Applicability	1-1
1-3	References	1-1
1-4	Program Planning and Execution	1-2
1-5	Contract Work	1-3
1-6	Types of Instruments	1-4
1-7	Instrument Uses	1-5
1-8	Collection of Complementary Data	1-5
1-9	Comments	1-9
CHAPTER 2 - TRANSDUCERS		
SECTION 1	Carlson Type Transducers	2-1
2-1	Description of the Instruments	2-1
2-2	Strain Meter	2-1
2-3	Miniature Strain Meter	2-2
2-4	Joint Meter	2-4
2-5	Stress Meter for Concrete	2-5
2-6	Pore Pressure Cell	2-7
2-7	The Reinforced Concrete Meter	2-9
2-8	Resistance Thermometer	2-10
2-9	Source	2-11
2-10	Instrument Preparation	2-11
2-11	Waterproofing Treatment	2-15
2-12	Cable Leads	2-15
2-13	Calibration Corrections	2-16
2-14	Correction Factors	2-18
2-15	Resistance Thermometer Calibration	2-19
2-16	Final Calibration Adjustments	2-19
2-17	Instrument Installation	2-20
2-18	Embedment Techniques	2-21

15 Sep 80

Paragraph	Page
SECTION II Terminal Facilities and Reading Instruments	2-22
2-19 Design of Terminal Recesses	2-22
2-20 Terminal Equipment	2-23
2-21 Installing Cable Leads	2-27
2-22 Installing Terminal Equipment	2-31
2-23 Reading Equipment	2-33
SECTION III Data Collection and Reduction	2-35
2-24 Collection of Data	2-35
2-25 Reading Schedules	2-36
2-26 Field Reduction of Data	2-39
SECTION IV Other Stress-Strain Type Transducers	2-41
2-27 General	2-41
2-28 Strain Measuring Instruments	2-41
2-29 Linear Variable Differential Transformers	2-48
2-30 Resistance Strain Gage	2-50
2-31 Stress Measuring Instruments	2-50
Plates 2-1 through 2-10	2-54

CHAPTER 3 - UPLIFT AND LEAKAGE

SECTION I Uplift	3-1
3-1 Purpose	3-1
3-2 Description	3-1
3-3 Installation	3-2
3-4 Collection of Data	3-5
3-5 Reading Schedules	3-7
SECTION II Leakage	3-8
3-6 General	3-8
3-7 Vee-Notch Weir	3-8
3-8 Critical Depth Meter	3-10
SECTION III Supplemental Instruments	3-11
3-9 General	3-11
3-10 Water Level Indicator	3-11
3-11 Vibrating Wire Piezometer	3-12
3-12 Strain Gaged Diaphragm Pressure Gage	3-13
3-13 WES Pressure Measuring Telemetry System	3-13
3-14 Hydraulic Pore Water Pressure Cell	3-15
3-15 WES Hydrostatic Pressure Cell	3-17
Plates 3-1 through 3-4	3-19

Paragraph		Page
CHAPTER 4 - PLUMBING INSTRUMENTS AND TILT MEASURING DEVICES		
4-1	General	4-1
4-2	Description	4-1
4-3	Installation Procedures	4-4
4-4	Maintenance and Care of Equipment	4-10
4-5	Collection of Data	4-11
4-6	Processing of Data	4-14
4-7	Inverted Plumb Line	4-14
4-8	Optical Plummet	4-17
4-9	Tilt Measuring Instruments	4-19
4-10	Instruments that Measure Tilt Through a Structure	4-19
4-11	Instruments that Measure Surface Tilt	4-31
4-12	Terzaghi Water Level Meter	4-41
Plates	4-1 through 4-5 (Sheet 3 of 3)	4-44
CHAPTER 5 - CRACK AND JOINT MEASURING DEVICES		
5-1	Purpose	5-1
5-2	Description of the Instruments	5-1
5-3	Instrument Details and Characteristics	5-1
5-4	Instrument Installation	5-9
5-5	Collection of Data	5-13
5-6	Reading Schedules	5-14
Plates	5-1 through 5-8	5-15
CHAPTER 6 PRECISE MEASUREMENT SYSTEMS		
SECTION I	Types of Measurement	6-1
6-1	Purpose	6-1
6-2	Types of Measurement	6-1
SECTION II	Precise Alignment Instruments	6-4
6-3	Laser Alignment Instruments	6-4
6-4	Instrument Installation	6-5
6-5	Data Collection	6-7
6-6	Data Reduction	6-7
6-7	Theodolite Alignment Instruments	6-8
6-8	Instrument Installation	6-11
6-9	Data Collection	6-15
6-10	Data Reduction	6-16
6-11	Precise Leveling	6-17
6-12	Data Collection	6-18
6-13	Data Reduction	6-18

Paragraph		Page
SECTION III	Precise Distance Measuring Instruments	6-19
6-14	Electronic Distance Measurement (EDM) Instruments	6-19
6-15	Instrument Installation	6-20
6-16	Data Collection	6-20
6-17	Data Reduction	6-21
SECTION IV	Triangulation and Trilateration	6-22
6-18	Triangulation	6-22
6-19	Instrument Installation	6-23
6-20	Data Collection	6-23
6-21	Data Reduction	6-24
6-22	Trilateration	6-24
6-23	Description of the Instrument	6-26
6-24	Data Collection	6-27
6-25	Data Reduction	6-28
Plates 6-1	through 6-3	6-29

CHAPTER 7 - TEMPERATURE MEASUREMENT

7-1	General	7-1
7-2	Temperature Measuring Devices	7-1
7-3	Installation	7-2
7-4	Collection of Data	7-2
7-5	Processing of Data	7-3

CHAPTER 8 - SEISMIC INSTRUMENTATION

8-1	Introduction	8-1
8-2	Description	8-1
8-3	Design Considerations	8-2
8-4	Hydrodynamic Pressure Measurement Considerations	8-2
8-5	Installation and Maintenance	8-3
8-6	Processing of Data	8-3

CHAPTER 9 - INSTRUMENTATION AUTOMATION TECHNIQUES

SECTION I	Introduction	9-1
9-1	Introduction	9-1
9-2	Scope	9-1
SECTION II	System Requirements	9-2
9-3	Defining the Objectives	9-2
9-4	Functional Requirements	9-2
9-5	Environmental Requirement	9-6

*

*	Paragraph	Page
	SECTION III System Design	9-7
	9-6 System Considerations	9-7
	9-7 Automated Measurement Techniques	9-7
	9-8 Component Compatibility	9-8
	9-9 Instrument/System Characteristics	9-8
	9-10 Interfacing Techniques	9-9
	9-11 Power Sources	9-9
	9-12 Grounding Techniques and Lightning Protection	9-10
	9-13 Maintainability	9-10
	9-14 Operability	9-11
	9-15 System Calibration	9-11
	9-16 System Flexibility	9-12
	9-17 Economic Factors	9-12
	SECTION IV Sensor Selection Criteria	9-13
	9-18 Sensor Selection Criteria	9-13
	9-19 Economic Factors	9-13
	9-20 Sensor Hazards	9-13
	SECTION V Signal Conditioning	9-15
	9-21 Introduction	9-15
	9-22 Bridge Circuits	9-16
	9-23 Amplification	9-17
	9-24 Instrumentation Amplifier	9-17
	9-25 Isolation Amplifiers	9-18
	9-26 Filtering	9-19
	9-27 Signal Conversion	9-20
	9-28 Electrical Interferences	9-22
	SECTION VI Data Transmission	9-24
	9-29 Types of Data Transmission	9-24
	9-30 Multiplexing	9-24
	9-31 Network Configurations	9-25
	9-32 Transmission Techniques	9-27
	9-33 Transfer Rate(resolution and accuracy)	9-27
	SECTION VII Data Processing, Display, and Recording	9-28
	9-34 Complexity	9-28
	9-35 Data Processing	9-28
	9-36 Display	9-29
	9-37 Recording/Storage	9-29
	SECTION VIII System Design Document and Design Review	9-30
	9-38 System Development	9-30
	9-39 Guidelines for Preparation of a System Design Document	9-30
	9-40 Guidelines for Conducting a Design Review	9-31
